

SPECIFICATIONS

Cushion Station™

Product Number 370 (without holes)

Product Number 371 (with holes)

Rubber

Type: Nitrile Rubber High density closed cell foam (10% recycled content)

Thickness: 7/16"

Durometer: 50 to 55

Testing

- Passes Flammability Standard DOC-FF-1-70
- Static Dissipative
- ASTM C1028-96 Static Coefficient of Friction: Dry - .94 Wet = .69
- Anti-microbial treated for lifetime protection against odors and degradation
- Grease and Oil proof
- Can be autoclave sterilized
- Welding safe
