

Grit-Coated Fiberglass Step Covers & Walkways

Technical Data

Description

Step covers and walkways provide slip resistance, durability on surfaces such as inclines, floors and steps. Fiberglass step covers and panels are lightweight and ideal for use on structurally sound flooring.

Specifications

- Proprietary blend of mineral abrasive epoxy grit
- Grit-coating applied over Thermoset Polyester Fiber Reinforced Polymer panels (fire retardant)
- Panels are 0.125" thick prior to grit-coating
- Available in three (3) grit-coating options: Heavy Duty, Medium and Fine
