

Foot Warmer Floor Mat

This is our Best-Selling Foot Warmer heated mat that warms up to an approximate operational temperature of 130°F while using the same electricity as a light bulb! Safe and economical – using one tenth the energy of dangerous space heaters.

- Safe and economical: It powers on just 90 watts; 92% less than a standard 1,500 watt space heater
- TUV Certified to UL 499:2005 R3.06 (U. S. only, not Canada): meeting strict safety standards
- Warms feet directly through boots or shoes
- Perfect for standing workstations, doorways and under desks
- May be used to melt snow from boots, leaving them warm and dry
- Can be used in on hard surfaces where water is often sprayed on the floor
- Provides warmth which can increase circulation, productivity and reduce fatigue
- Even should the Foot Warmer Floor Mat be left on, it assures safety and lower energy costs than space heaters
- Do not use on carpet, for use on hard floors only
- Can be used outdoors
- Dimensions: 20.5" L X 13.5" W X .25" Thick
- Weight: 5 lbs
- 0.8 amps

The Foot Warmer Mat creates a

comfortable even radiant heat which can stimulate circulation and reduce fatigue while sitting or standing. Ideal for those who are on their feet or in cold environments for long hours like bank tellers, machinists, warehouse workers, toll booth operators or any users who use space heaters.

There is a two year warranty/replacement policy.

The U.S. Consumer Product Safety Commission estimates that more than 25,000 residential fires every year are associated with the use of room (space) heaters. More than 300 persons die in these fires. An estimated 6,000 persons receive hospital emergency room care for burn injuries associated with contacting hot surfaces of room heaters, mostly in non-fire situations.

What You Can Expect From The Foot Warmer Floor Mat

When the room temperature is 68 degrees the floor temperature is generally about 60 degrees except on an outside wall. The floor temperature on an outside wall could be as low as 53 degrees and could be colder on a slab floor . This is why one experiences cold feet and legs. The surface temperature will vary depending upon the floor temperature.

If the floor temperature is 64 degrees, the surface temperature of the Foot Warmer Floor Mat will be 110-112 degrees.

If the floor temperature is 53 degrees, the surface of the Foot Warmer Floor Mat will be 105-108 degrees.
