

Grip Rock Floor Mat

Extremely slip-resistant floor mats for wet, oily and greasy floors, ramps, stairs, walk-in freezers and other slippery surfaces

- Made with crushed garnet and ceramic beads for secure footing
- Backing restricts creeping
- Low profile eliminates tripping hazard and allows it to be placed under thresholds
- Resists fungal & bacterial growth
- The Grip Rock mats are 3/8" thick
- They are 3' wide and can be purchased per lineal ft as well (3' x 3' for example)

Grip Rock slip-resistant safety mats are:

- Slip-resistant in water, grease, and oil
- Extremely tough and durable
- Flexible even in freezing temperatures
- Lightweight and thin (1/8 inch thick, a 3' x 10' is only 25 pounds)
- No installation needed
- Easy to handle, clean, and maintain
- The regular version has a tacky polyurethane backing that is especially conducive to temporary floor adhesion and slip resistance. It is meant to be removed and cleaned and moved around as necessary.

Grip Rock slip-resistant floor mat has a unique surface, incorporating round textured c
