

# HOTFlake Door or Landing Floor Mat

[code\_snippet id=28]

Avoid the hazardous fall on the ice this winter! The HOTFlake™ outdoor industrial heated floormats have been designed for keeping stairs, doorways, handicapped ramps, walkways, entry ways, and alleyways safe and ice free! They are safe and secure from accidents due to slipping and falling. They melt snow and ice on contact. The HOTFlake™ outdoor heated floor mats are designed to withstand harsh winter conditions.

The floor mats have both a male and female connector on them. They are designed to be daisy chained together and the connectors are 100% waterproof. Extension cord adapters are only needed if you are placing them on a radius. These mats are 1/2" solid rubber and can withstand the weight of an automobile. ([GFCI Power Cord](#) not included.)

- Salt and sand no longer necessary
- No more shoveling or back pain!
- Floor mats are completely waterproof and offer great anti-slip traction, even in the worst conditions!
- Safe to use on PVC decking
- The floormat will maintain an average AMBIENT temperature of 44 to 50 degrees Fahrenheit (7 to 10 degrees Celsius). Don't be concerned about your pets burning their feet – you may see them lying on the mats for warmth.
- These mats are Eco friendly, inter-connectable, and versatile.
- 100% Virgin Rubber
- Dimensions: 36" L x 24" W x 0.31" H
- Weight: 15 lbs
- These mats can connect up to 10 (120V) or 20 (240V) [rubber stair treads](#), up to 5 (120V) or 10 (240V) [rubber doormats and landing mats](#) AND up to 4 (120V) or 8 (240V) [rubber walkway and driveway mats](#). In any combination, connections should not exceed 15 amps per GFCI.
