

# Super Foot Warmer Floor Mat

Safe and economical – using one tenth the energy of dangerous space heaters.

- The Super Foot Warmer is waterproof and designed to be used indoor and outdoor
- Uses only 135 watts; 90% less than a standard 1,500 watt space heater
- TUV Certified to UL 499:2005 R3.06 (U. S. only, not Canada): meeting strict safety standards
- Warms cold feet directly through shoes or boots
- Perfect for under desks & standing work stations
- May be used to melt snow from boots, leaving them warm & dry
- Can be used in on hard surfaces where water is often sprayed on the floor
- Super Foot Warmer Floor Mat generates a radiant heat which creates an extremely comfortable even heat which can reduce fatigue, increase productivity and stimulate circulation while sitting or standing
- Increased economy and safety!
- Even should the Super Foot Warmer Floor Mat be left on, it assures safety and lower energy costs than space heaters.
- Ideal for people who spend long hours on their feet or in cold environments, including bank tellers, toll booth operators, warehouse workers, machinists and any other users of space heaters
- Not recommended to be used with a thermostat or dimmer switch. Once the mat reaches its top temperature in 10-15 minutes, the mat is designed to stay at the temperature for the duration that it is plugged into a power source.
- Designed for use on hard floors only (do not use on carpet)
- Can be used outdoors
- Dimensions: 36.25" L X 16" W X .25" Thick
- Weight: 11 lbs
- 1.2 amps

There is a two year warranty/replacement policy.

The U.S. Consumer Product Safety Commission estimates that more than 25,000 residential fires every year are associated with the use of room (space) heaters. More than 300 persons die in these fires. An estimated 6,000 persons receive hospital emergency room care for burn injuries associated with contacting hot surfaces of room heaters, mostly in non-fire situations.

## What You Can Expect From The Super Foot Warmer Floor Mat

When the room temperature is 68 degrees the floor temperature is generally about 60 degrees except on an outside wall. The floor temperature on an outside wall could be as low as 53 degrees and could be colder on a slab floor . This is why one experiences cold feet and legs. The surface temperature will vary depending upon the floor temperature.

- If the floor temperature is 64 degrees, the surface temperature of the Super Foot

# Super Foot Warmer Floor Mat

Warmer Floor Mat will be 110-112 degrees.

- If the floor temperature is 53 degrees, the surface of the Super Foot Warmer Floor Mat will be 105-108 degrees.
